

BASIC TECHNIQUES OF THROWING

INTENSIVE COURSE ON THROWING

11-12-13-14-15-16-17 JULY 2022

**INCLUDED: 42 HOURS OF TEACHING | ALL THE NECESSARY
MATERIALS | FIRING**

MAXIMUM 3 PARTICIPANTS

TEACHER: ROBERTO REALI

 **FAENZA ART
CERAMIC CENTER**

INTRODUCTION

Working on wheel is an art that requires time, perseverance and a small group. This basic course, thanks to the experience of Roberto Reali (wheel potter in Faenza for over 50 years), will deal with the main techniques for starting to work on the wheel such as: centring, the cylinder and then the first forms derived from the cylinder such as the bowl, the vase, the cup and the jug.

We have deliberately not specified a programme divided into days because the course is structured as a marathon linked to the repetition of gestures and techniques **essential** for entering the world of throwing.

On the penultimate day of the course participants will be given the opportunity to fire a selection of their own works.

Course times:

Daily | 9.00 - 12.00 and 14.00 - 17.00 (6 hours per day);

The course starts at 9 a.m. on Monday 11/07 and ends at 5 p.m. on Sunday 17/07.

INFORMATION

The end of the lessons may be subject to variations linked to the progress of the workshop.
The workshop take place in Piazza Il Giugno, 8 - Faenza | Italy
